## WHAT MAKES VALLEY FAMILY LTD DIFFERENT?

All HCS Providers are required to offer the same array of services, but all HCS Providers are not the same! When choosing a provider, consider the following:

### • Stability

Valley Family Limited has been operating here in the Valley since 1997. You can feel confident that we will continue to be here for years to come.

### • Experience

We have a wonderful team of direct care and administrative professionals, many of whom have worked in this field for decades. We are thoroughly familiar with State regulations and best practices in our field, and have served many individuals with a wide variety of special needs.

### • Values

Unlike some programs that are run by a corporation, Valley Family Limited was founded by a medical doctor named Salvador Garcia. Dr. Garcia genuinely cares about the individuals we serve, and these values mean that decisions are made with the individuals' best interests in mind, not simply the bottom line.

### • Transparency

Family members are always welcome to visit, and we work hard to maintain open lines of communication. We have a Facebook page where families can check out some of our fun activities.
